

Bug report

1. Program allows enter special character in the "Element" input field

Id: 1

Project: TextFilter

Area: Element input field

Build: 0.0.001hb

Severity: high

Steps:

1) Run dumb.exe

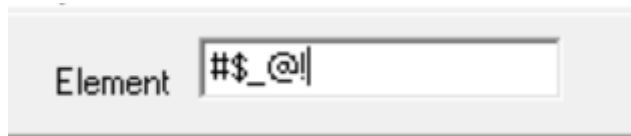

2) Click on the File - New

3) Enter in the "Element" input field special characters: #\$_@!

Expected result: the program doesn't allow enter special characters. Proper error message is displayed.

Actual result: #\$_@! is displayed in the input field

Attachment:

2. Program allows add empty values in the list

Id: 2

Project: TextFilter

Area: Element input field

Build: 0.0.001hb

Severity: high

Steps:

1) Run dumb.exe

2) Click on the File - New

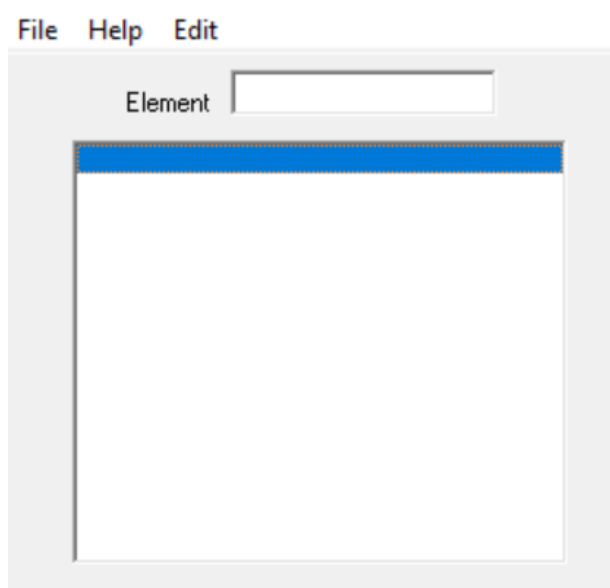

3) Click on the Element input field

3) Click on the Add button

Expected result: the program doesn't allow add empty values in the list. Proper error message is displayed.

Actual result: the program allows add empty values in the list

Attachment:

3. **Program allows paste Cyrillic from the clipboard using right mouse button to the "Element" input field**

Id: 3

Project: TextFilter

Area: Element input field

Build: 0.0.001hb

Severity: high

Steps:

1) Run dumb.exe

2) Click on the File - New

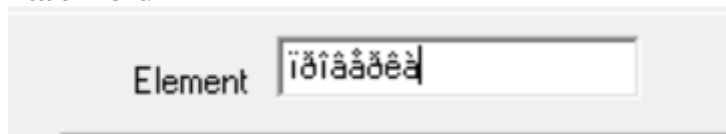

3) Copy: "проверка"

4) Paste "проверка" from the clipboard using right mouse button to the "Element" input field

Expected result: copied text is not displayed. Proper error message is displayed.

Actual result: copied text is displayed.

Attachment:

4. **Program doesn't allow copy entered values from the "Element" input field**

Id: 4

Project: TextFilter

Area: Element input field

Build: 0.0.001hb

Severity: high

Steps:

1) Run dumb.exe

2) Click on the File - New

3) Enter "test" in the Element input field

4) Highlight "test" and press CTRL+C

5) Нажать Ctrl+C

6) Paste from the clipboard in the Notepad++

Expected result: copied text is displayed

Actual result: copied text isn't displayed

5. **Program allows enter Cyrillic text in the "Filter" input field**

Id: 5

Project: TextFilter

Area: Filter input field

Build: 0.0.001hb

Severity: high

Steps:

1) Run dumb.exe

2) Click on the File - New

3) Enter "проверка"

Expected result: text can't be entered

Actual result: text is entered

Attachment:

6. **Program allows enter special characters in the "Filter" input field**

Id: 6

Project: TextFilter

Area: "Filter" input field

Build: 0.0.001hb

Severity: high

Steps:

1) Run dumb.exe

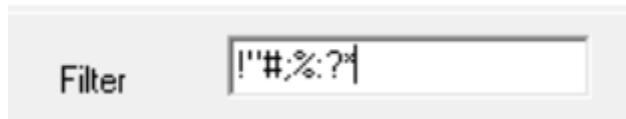

2) Click on the File - New

3) Add !"#\$%:~*() in the Filter input field

Expected result: text can't be entered

Actual result: text is entered

Attachment:

7. **Program allows add empty values in "Filter" input field**

Id:7

Project: TextFilter

Area: Filter input field

Build: 0.0.001hb

Severity: high

Steps:

1) Run dumb.exe

2) Click on the File - New

3) Click on the "Filter" input field

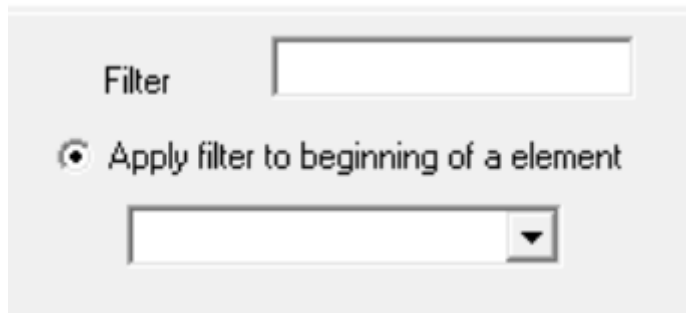

4) Click on the "Add filter" button

5) See in the "Apply filter to a beginning of a element" empty value

Expected result: the program doesn't allow add empty values. Proper error message is displayed.

Actual result: the program doesn't allows add empty values

Attachment:

8. **Program allows paste Cyrillic from the clipboard using right mouse button to the "Filter" input field**

Id: 8

Project: TextFilter

Area: Filter input field

Build: 0.0.001hb

Severity: high

Steps:

1) Run dumb.exe

2) Click on the File - New

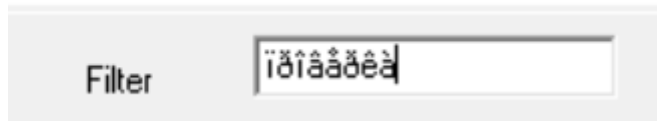

3) Copy "проверка"

- 4) Click RMB in the Filter input field
- 5) Click on the "Paste" in the dropdown

Expected result: copied text is not displayed. Proper error message is displayed.

Actual result: copied text is displayed.

Attachment:

9. **Program doesn't allow to clear "Element" input field using backspace**Id: 9

Id: 9

Project: TextFilter

Area: Element input field

Build: 0.0.001hb

Severity: high

Steps:

- 1) Run dumb.exe
- 2) Click on the File - New
- 3) Enter "test" in the Element input field
- 4) Press backspace key to clear the field

Expected result: the field is cleared

Actual result: field isn't clear

10. **Lexicographic ascending sorting doesn't work properly**

Id: 10

Project: TextFilter

Area: sorting (button"Sort a-z")

Build: 0.0.001hb

Severity: high

Steps:

- 1) Run dumb.exe
- 2) Click on the File - New
- 3) Enter abc in the Element input field
- 4) Click on the "Add" button that is below the window with lists
- 5) Enter abb in the Element input field
- 6) Click on the Add button that is below the window with lists
- 7) Enter aba in the Element input field
- 8) Click on the Add button that is below the window with lists
- 9) Click on the "Sort z-a" button
- 10)Click on the "Sort a-z" button

Expected result:

aba

abb

abc

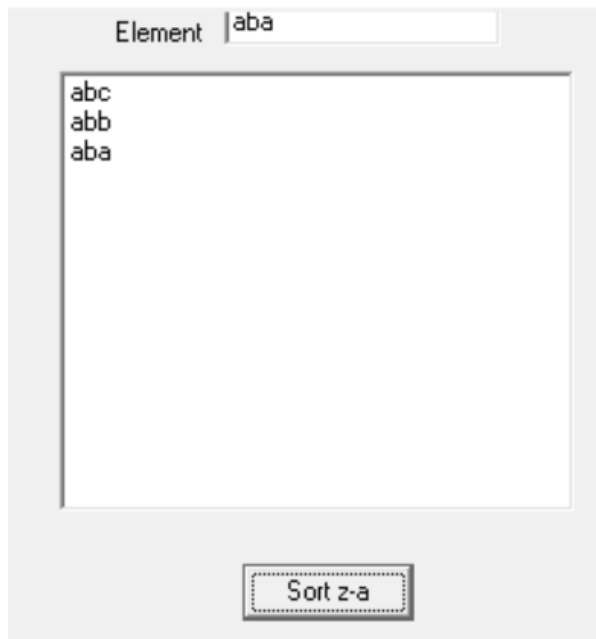

Actual result:

abc

abb

aba

Attachment:

11. Lexicographic descending sorting doesn't work properly

Id: 11

Project: TextFilter

Area: sorting (button "Sort z-a")

Build: 0.0.001hb

Severity: high

Steps:

- 1) Run dumb.exe
- 2) Click on the File - New
- 3) Enter abc in the Element input field
- 4) Click on the "Add" button that is below the window with lists
- 5) Enter acb in the Element input field
- 6) Click on the "Add" button that is below the window with lists
- 7) Enter acc in the Element input field
- 8) Click on the "Add" button that is below the window with lists
- 9) Click on the "Sort z-a" button

Expected result:

acc

acb

aba

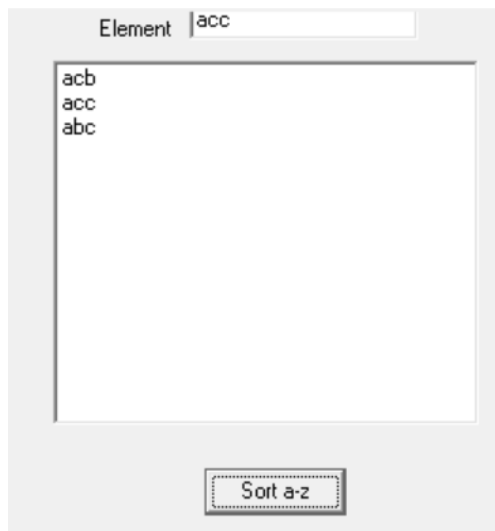

Actual result:

acb

acc

abc

Attachment:

12. **Ascending numbers sorting doesn't work properly**

Id: 12

Project: TextFilter

Area: sorting (button "Sort a-z")

Build: 0.0.001hb

Severity: high

Steps:

1) Run dumb.exe

2) Click on the File - New

3) Enter and add sequentially text in the element input field:

222

221

22

4) Click on the "Sort z-a" button

5) Click on the "Sort a-z" button

Expected result:

22

221

222

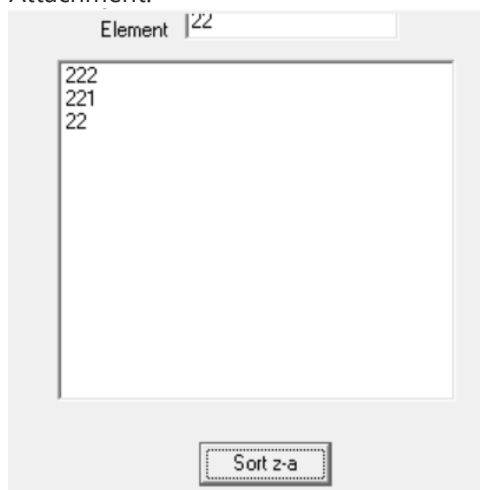

Actual result:

222

221

22

Attachment:

13. **Descending numbers sorting doesn't work properly**

Id: 13

Project: TextFilter

Area: sorting (button "Sort z-a")

Build: 0.0.001hb

Severity: high

Steps:

1) Run dumb.exe

2) Click on the File - New

3) Enter and add sequentially text in the element input field:

11

121111

12

34567890

4) Click on the "Sort z-a" button

5) Click on the "Sort a-z" button

Expected result:

34567890

121111

12

11

Actual result:

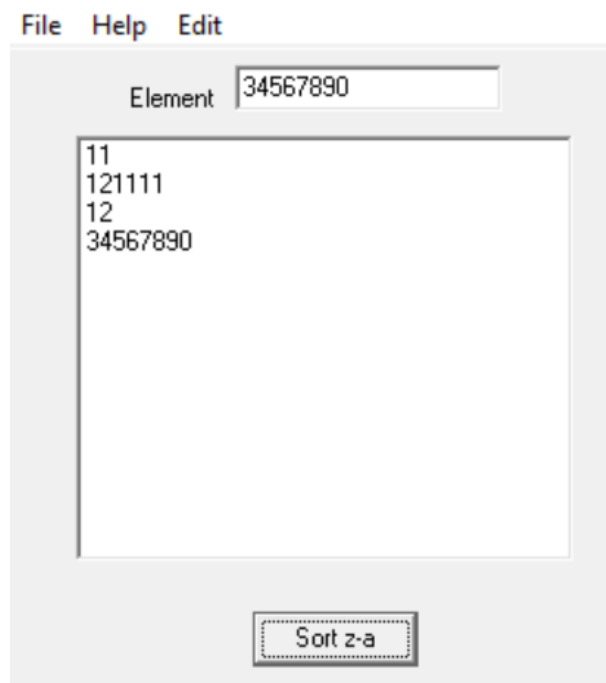

11

121111

b1

b11

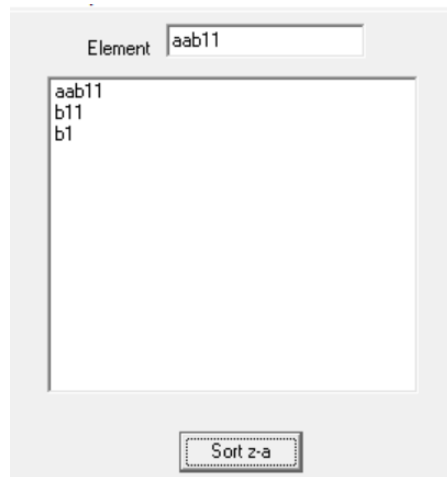

Actual result:

aab11

b11

b1

Attachment:

15. **Mixed string(both letters and digits) descending sorting doesn't work properly**

Id: 15

Project: TextFilter

Area: sorting (button "Sort z-a")

Build: 0.0.001hb

Severity: high

Steps:

1) Run dumb.exe

2) Click on the File - New

3) Enter and add sequentially text in the element input field:

b11

b1

aab11

4) Click on the "Sort z-a" button

Expected result:

b11

b1

aab11

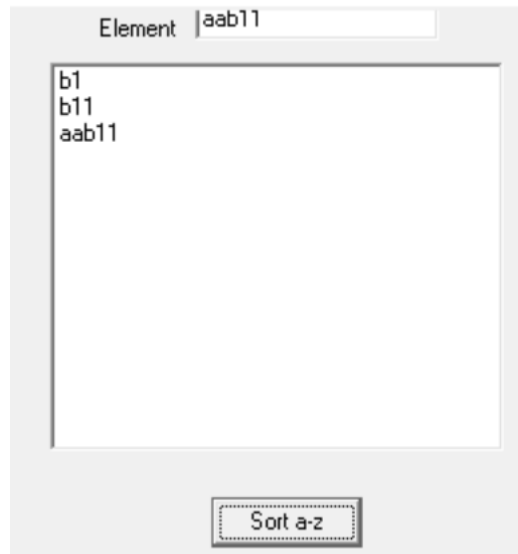

Actual result:

b1

b11

aab11

Attachment:

16. Program allows paste special characters to the "Element" input field from the clipboard using right mouse button

Id: 16

Project: TextFilter

Area: adding string (button "Add")

Build: 0.0.001hb

Severity: high

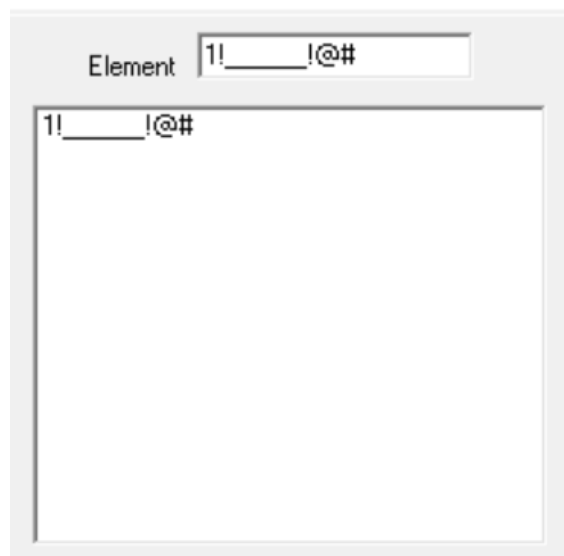

Steps:

- 1) Run dumb.exe
- 2) Click on the File - New
- 3) Copy 1!_____!@#
- 4) Click on the Element input field using right mouse button
- 5) Click on the "Paste" in the dropdown
- 6) Click on the "Add" button

Expected result: the string wasn't added. Proper error message is displayed.

Actual result: the string was added and it is in the lists window

Attachment:

17. If no element in the list was selected and pressed "Delete", a random one is deleted

Id: 17

Project: TextFilter

Area: deleting an element (button "Delete")

Build: 0.0.001hb

Severity: high

Steps:

1) Run dumb.exe

2) Click on the File - New

3) Enter and add sequentially text in the Element input field:

abc

abb

abv

4) Click on the "Delete" button

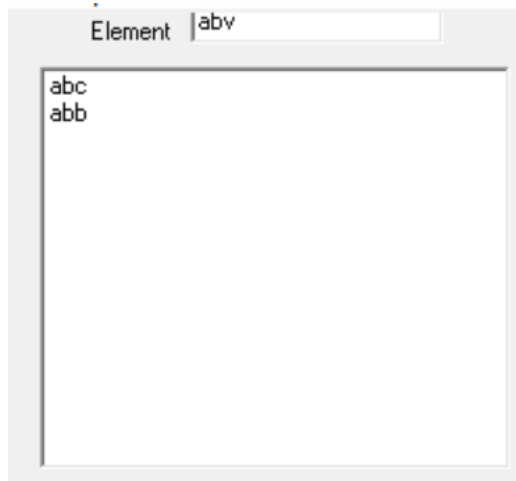

Expected result: no element was deleted. Proper error message is displayed.

Actual result: in lists window:

abc

abb

Attachment:

18. The list items disappears after applying the filter "Apply filter to a beginning of an element", if the filter is letters

Id: 18

Project: TextFilter

Area: filtering (beginning of an element)

Build: 0.0.001hb

3) Enter and add sequentially text in the element input field:

b11

b1

aab11

4) Click on the "Apply filter to end of a element" radio button

5) Enter in the "Filter"

b11

6) Click on the "Add filter" button

7) In the "Apply filter to end of a element" dropdown select "b11"

Expected result: in the lists window:

b11

aab11

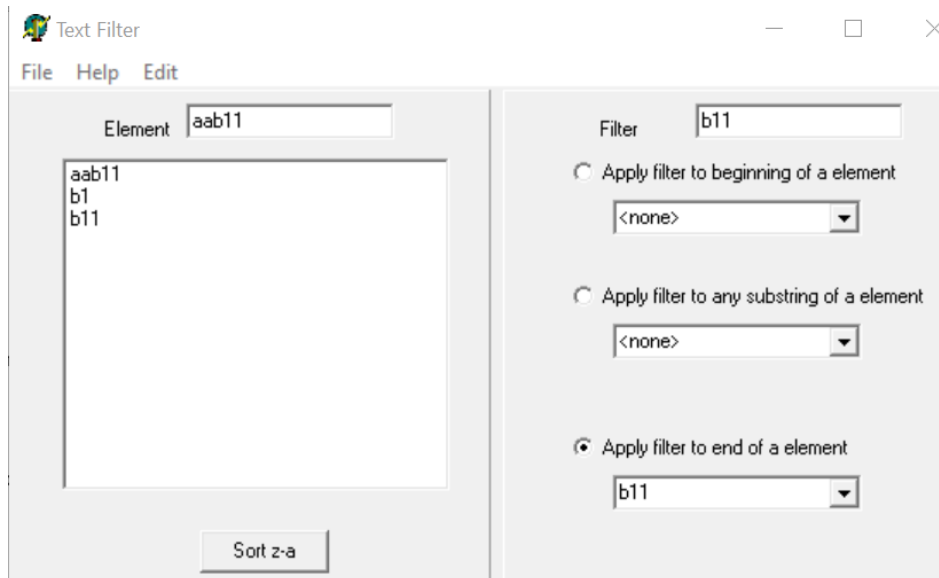

Actual result:

aab11

b1

b11

Attachment:

23. **After new file creation "Element" input field isn't clear - the old file value remains**

Id: 23

Project: TextFilter

Area: related menu (File)

Build: 0.0.001hb

Severity: medium

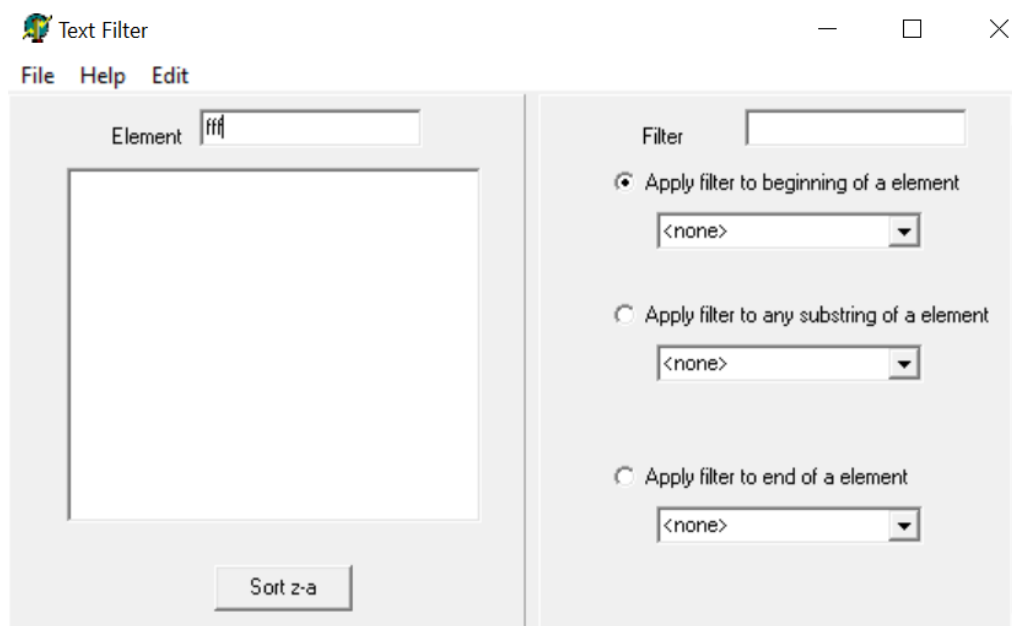

Steps:

- 1) Run dumb.exe
- 2) Click on the File - New
- 3) Enter in the "Element" input field: fff
- 4) Click on the File - New

Expected result: "Element" input field is empty

Actual result: fff

Attachment:

24. After new file creation "Filter" input field isn't clear - the old file value remains

Id: 24

Project: TextFilter

Area: related menu (File)

Build: 0.0.001hb

Severity: medium

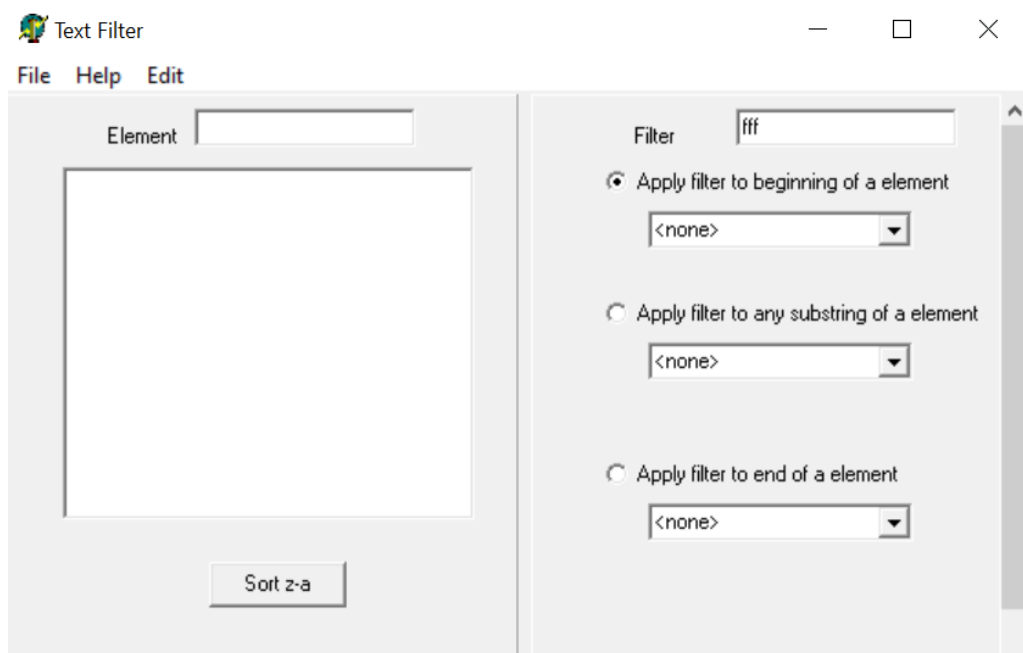

Steps:

- 1) Run dumb.exe
- 2) Click on the File - New
- 3) Enter in the "Filter" input field: fff
- 4) Click on the File - New

Expected result: "Filter" input field is empty

Actual result: fff

Attachment:

25. When trying to save a file with a file name that already exists, a warning does not appear

Id: 25

Project: TextFilter

Area: related menu (File)

Build: 0.0.001hb

Severity: high

Steps:

- 1) Run dumb.exe
- 2) Click on File - New
- 3) Enter the line fff in the input field "Filter"
- 4) Click on File - Save
- 5) Save under the name "test"
- 6) Click on File - New
- 7) Enter the string aaa in the input field "Filter"
- 8) Click on File - Save
- 9) Save under the name "test"

Expected result: a dialog window appears with a warning "You want to replace the file" or the like

Actual result: the file is saved without warning

26. The program closes without a dialog window with a warning about saving

Id: 26

Project: TextFilter

Area: related menu (File)

Build: 0.0.001hb

Severity: high

Steps:

- 1) Run dumb.exe
- 2) Click on File - New
- 3) Enter the line fff in the input field "Filter"
- 4) Click on File - Exit

Expected result: A dialog window appears with a warning that unsaved changes will be lost

Actual result: The program closes without warning

27. The program stops responding after closing the "About" window

Id: 27

Project: TextFilter

Area: related menu (Help)

Build: 0.0.001hb

Severity: high

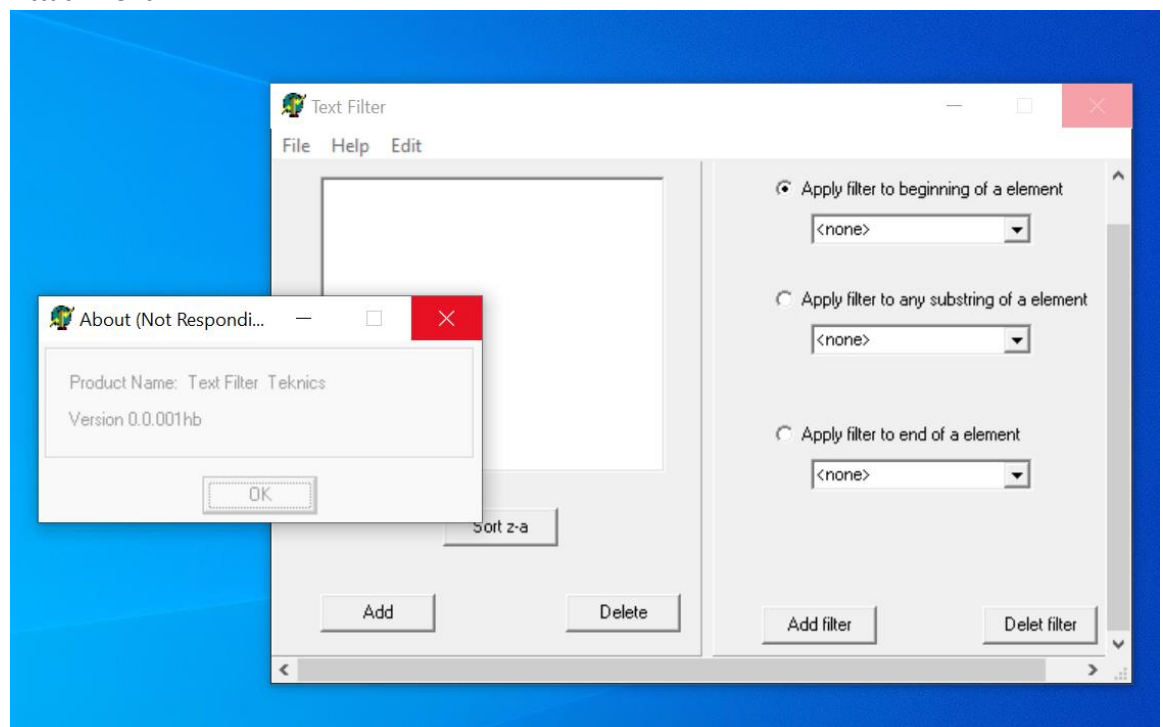

Steps:

- 1) Run dumb.exe
- 2) Click on Help - About
- 3) Click on the "OK" button

Expected result: the "About" window has closed

Actual result: the program does not respond

Attachment:

28. In addition to its main function, "Cut" copies the selected line to the clipboard

Id: 28

Project: TextFilter

Area: related menu (Edit)

Build: 0.0.001hb

Severity: low

Steps:

- 1) Run dumb.exe
- 2) Click on File - New
- 3) Enter any string in the Element input field
- 4) Highlight this line
- 5) Click on Edit-Cut
- 6) Look at the contents of the clipboard

Expected result: selected line is cut

Actual result: selected line is cut and copied

29. The size of the program window at startup is too small to view all its contents without scrolling

Id: 29

Project: TextFilter

Area: program main window

Build: 0.0.001hb

Severity: low

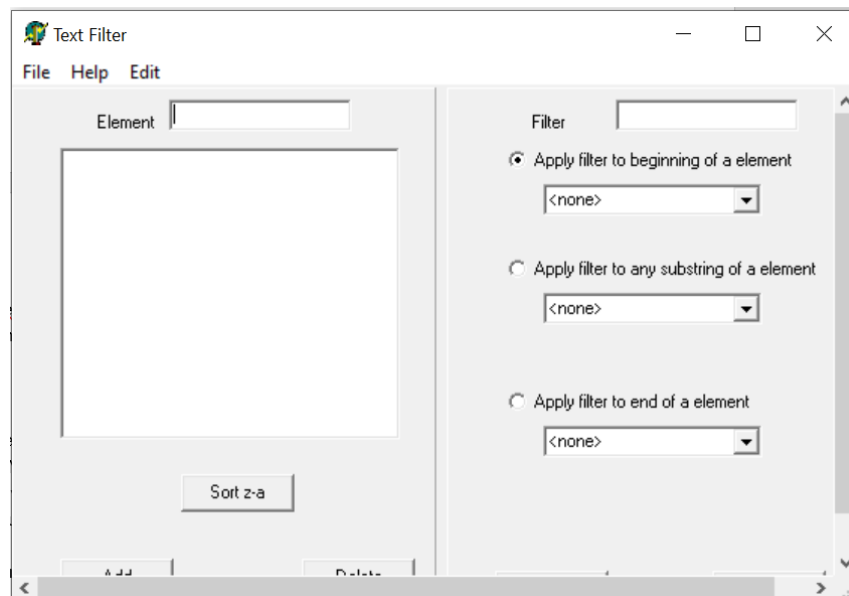

Steps:

- 1) Run dumb.exe
- 2) Click on File - New

Expected result: you can see the entire contents of the window without scrolling

Actual result: you need to scroll

Attachment:

30. Error in the name of the Help - index menu item (lowercase letter)

Id: 30

Project: TextFilter

Area: menu About

Build: 0.0.001hb

Severity: low

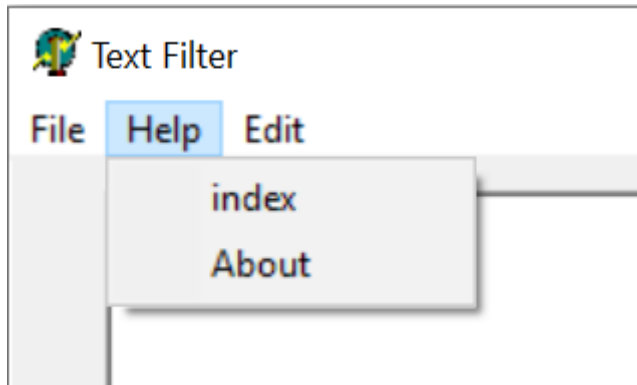

Steps:

- 1) Run dumb.exe
- 2) Click on "Help"
- 3) See "index"

Expected result: Index

Actual result: index

Attachment:

31. Error in the name of the Edit - Cat menu item (instead of Cut)

Id: 31

Project: TextFilter

Area: menu Edit

Build: 0.0.001hb

Severity: low

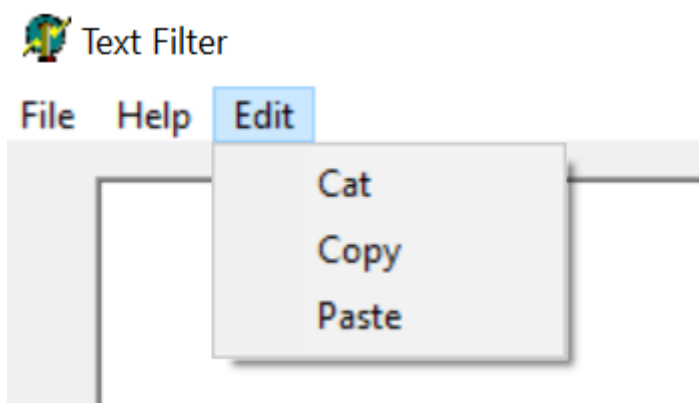

Steps:

- 1) Run dumb.exe
- 2) Click on "Edit"
- 3) See "Cat"

Expected result: Cut

Actual result: Cat

Attachment:

32. Error in the name of the button - "Delete filter" (instead of "Delete filter")

Id: 32

Project: TextFilter

Area: filtering panel

Build: 0.0.001hb

Severity: low

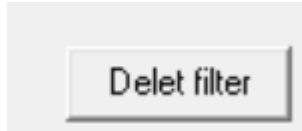

Steps:

- 1) Run dumb.exe
- 2) Click on File - New
- 3) See "Delet filter", that is on filtering panel

Expected result: Delete filter

Actual result: Delet filter

Attachment:

33. Error in button name - "Apply filter to beginning of a element" (instead of "Apply filter to the beginning of an element")

Id: 33

Project: TextFilter

Area: filter panel

Build: 0.0.001hb

Severity: low

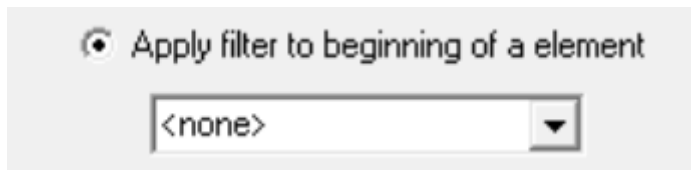

Steps:

- 1) Run dumb.exe
- 2) Click on File - New
- 3) See "Apply filter to beginning of a element" radio button, ", that is on filtering panel

Expected result: Apply filter to the beginning of an element

Actual result: Apply filter to beginning of a element

Attachment:

34. Error in button name - "Apply filter to any substring of a element" (instead of "Apply filter to any substring of an element")

Id: 34

Project: TextFilter

Area: filter panel

Build: 0.0.001hb

Severity: low

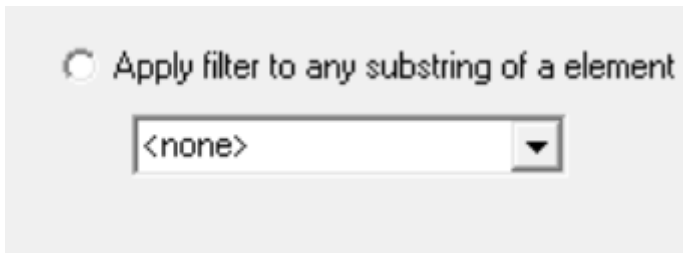

Steps:

- 1) Run dumb.exe
- 2) Click on File - New
- 3) See the radio button "Apply filter to any substring of a element", located on the right, on the filtering panel

7. Expected result: Apply filter to any substring of an element

8. Actual result: Apply filter to any substring of an element

Attachment:

35. Error in button name - "Apply filter to end of a element" (instead of "Apply filter to the end of an element")

Id: 35

Project: TextFilter

Area: filter panel

Build: 0.0.001hb

Severity: low

Steps:

1) Run dumb.exe

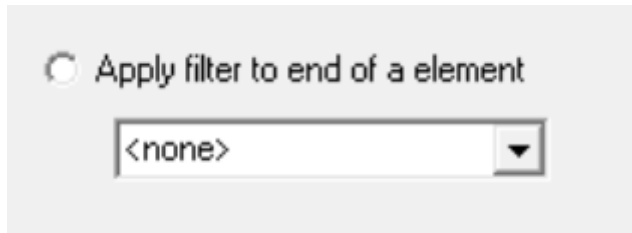

2) Click on File - New

3) See the "Apply filter to end of a element" radio button located on the right side of the filter panel

7. Expected result: Apply filter to the end of an element

8. Actual result: Apply filter to end of a element

Attachment:

36. The name of the program does not match the name of the EXE file

Id: 36

Project: TextFilter

Area: Dumb.exe

Build: 0.0.001hb

Severity: low

Steps:

1) Run dumb.exe

2) See the title: "Text filter"

Expected result: same name as the .exe file

Actual result: different names

Attachment:
